> Schenck's Mandrake Pills. A Certain Cure for Diseased Liver and the many Danger-

mes Muladies which are caused by a morbid condition of To give the public a clear understanding of the mode in which Schenck's Mandrake Pills produce those wooderful effects which are attested by thousands of reliable witses, we present a brief DESCRIPTION OF THE HU MAN LIVER and its functions, which will make the opcration of this popular medicine perceptible to every man's understanding.

The liver is supplied with bond vessels, nerves and ab-

sorbants. One of its obvious uses is to secrete and pre-pare the bile. It akewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function!
If the liver is diseased it cannot purify the blood, and if
that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jamidice, biliousness obstruction of the kilneys, gravet, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfort, able' and unfit for the performance of any of the duties of ite. This unhealthy state of the system very often end

backward through the veins, and passes to the fiver to be purified. It is impossible to cure consumption, scrofula or scarcely any other kind of ulceration, while that impertant organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some sough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead if relaxing some shape, which locks up the liver instead if relaxing the secretions giving a tone to the stomach, and producing a hearity flow of bile. Dr. Schenck's PULMONIC SYRUP, SEAWEED TONIC, AND MANDRAKE PILLS, will strengthen the system, purify the blood, and ripen and hear ucers on the lungs.

Avolume would be required to give a brief account of the remarkable cures performed by Dr. Schenck's madicines, viz. Putmonic Syrup, Seaweed Tonic and Mandrake Piles—all of which are accompanied with full directions for the use of them.

notes for the use of them.

Great National Railway across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State Line, cently of the Loudon county bar in Virginia, aged 28 traver-ing the michest and most populous section of CALIFORNIA, and thence through the GREAT MINING RE-GIOES OF THE TERRITORIES, to the vicinity of Salt Lake

It forms the SOLE WESTERN LINE of the only route to the Pacific which is adopted by Congress and AIDED BY THE ISSUE OF UNITED STATES BONDS. Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierra-, and a large amount of the work of Grading, Tunnelling, &c., beyond that spoint has been accomplished.

THE FIRST MORTGAGE BONDS Of this company afford unusual inducements of safety and Profit to Investors, for the following among other reasons, viz. : FIRST. The rate of interest is SIX PER CENT, IN GOLD payable semi-annually in the city of New York.

SECOND. The PRINCIPAL is payable in Gold at maturity. THIRD. The cost of the Bonds, NINETY-FIVE PER CENT, and accrued interest, is TEN PER CENT, less than that of the cheapest Six Per. Cent. Gold Bearing Bonds of the Government. FOURTH. The United States Government provides

nearly half the amount necessary to build the en-tire road, and lo ks mainly to a small percentage on the future traffic for re-payment. FIFTH. Owing to this liberal provision, accompanied with Extensive Geants of Public Lands, by which the Government fosters this great national financial stability is altogether independent of the

contingencies which attend ordinary Railroad en-

SIXTH. The Security of its First Mortgage Bonds is therefore AMPLE, and their character for safety and reliability is equalled only by that of the obligations of the GOVERNMENT ITSELF. SEVEN | II. The not earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the distance, and are steadily increasing, render-

te: prises.

absolutely certain. EIGHTH. At the present rate of Gol i they pay nearly S'e PER CENT, per annum, on the amount invest-The Boods are issued in denominations of \$1,600 with

ing the uninterrupted payment of the Interest

semi-annual Gold Coupons attached, payable in New York, and are offered for the present at % per cent. and accrued interest (in our ency from January 1st.

Orders may be for carded to us direct, or through the principal banks or bankers in all pasts of the country. Remittances may be made in drafts on New York, in legal tender notes, national bank notes, or other funds current in this city, and the bonds will be for warded to any address by express, free of charge, Inquiries for further particulars, by mail or otherwise, will receive punctual attention,
